## BOSTON RED SOX COME FROM BEHIND AND WIN THE FIRST

KNOCK TESREAU OFF SLAB IN  
SEVENTH INNING WITH  
NEW YORK LEADING.

## WOOD THE HERO OF THE GAME

Fans Crandall for the Third Out  
in Determined Giant  
Rally.

INNINGS 1-2-3-4-5-6-7-8-9 R-H-E  
BOSTON 0 0 0 0 1 3 0 0 4 6 1  
NEW Y. 0 0 2 0 0 0 0 0 1 3 8 1

New York, Oct. 8.—Special.—The Boston Red Sox won the first game of the world's series by coming from behind and knocking Tesreau off the slab in the seventh inning when four hits, two of them doubles, netted three runs.

The ninth inning brought the greatest finish ever seen in a championship game. With two runs needed to tie, the Giants went at it determinedly. One run was shoved across, there were men on second and third with two out, and Crandall had a chance to win his own game. Wood pitched carefully. First a ball and then a strike, then another ball, another strike and the third ball. With that situation Wood rose nobly to the occasion and fanned him.

## HOW THE RUNS WERE SCORED.

Third inning: Tesreau fanned. Devore walked and Doyle singled back of third, Doyle taking second. Murray singled, scoring Devore and Doyle; but was caught stealing.—2 runs.

Sixth inning: With one down Speaker tripped into the crowd and scored when Lewis shoved a hot one to Doyle on which he was thrown out.

Seventh inning: Stahl out, Doyle to Merkle. Wagner singled to center. Cady duplicates Wagner's hit, Wagner stopping at second. Wood forces Cady at second, Wagner going to third. Meyers made a great try for Hopper's high foul near the stands, but missed it and Hopper slammed a double to center, Wagner scoring and Wood going to third. Yerkes doubled, scoring Wood and Hopper. Speaker fanned. Three runs.

Ninth inning: Murray out. Merkle singled. Herzog singled. Meyers doubled scoring Merkle. Herzog stopping at third. Becker running for Meyers. Fletcher fans. Crandall fans.—One run.

New York, Oct. 8.—Special to Telegraph.—A crowd which completely filled the Polo grounds jammed that park hours before the first game of the great world's series between the Giants and Boston Red Sox was called. Every one of the extra seats that had been provided was filled and the great mob of fans waited impatiently for the players to appear.

At 2 o'clock sharp, following a conference of the umpires and managers over the necessary ground rules, Umpire Klem took his position behind the bat, Evans went to the infield and O'Loughlin and Rigler took their stations in the outfield. Klem announced the batteries: Tesreau and Meyers for the Giants, and Wood and Cady for Boston. The two teams batted thusly:

New York	Boston
Devore, lf	Hopper, rf
Doyle, 2b	Yerkes, 2b
Shodgrass, cf	Speaker, cf
Murray, rf	Lewis, lf
Merkle, 1b	Gardner, 3b
Herzog, 3b	Stahl, 1b
Meyers, c	Wagner, ss
Fletcher, ss	Cady, c
Tesreau, p	Wood, p

## NO CUBS-SOX GAME.

Chicago, Oct. 8.—Special to Telegraph.—The first game of the city series between the Cubs and Sox which was to have been played at White Park this afternoon, was called off because of rain. Weather permitting it will be staged at the same park tomorrow.

## MRS. RUSSELL SAGE

Mrs. Russell Sage has purchased, for about \$150,000, Marsh Island, southwest of New Orleans, with the intention of dedicating it in perpetuity as a refuge for wild birds.

## MRS. M. L. WINGERT LEAG AT MTCARROLL

## BELOVED WOMAN SUCCEUMED TO BRIGHT'S DISEASE LAST NIGHT.

Mrs. Media L. Wingert, wife of Judge Alva Wingert and well known to many people in this city, died last night at her home in Mt. Carroll of Bright's disease, after a short illness, at the age of 41 years. She was born at Galesburg, Ill., and later lived at Howard, South Dakota. She graduated from Knox college and took supplemental studies at Paris and Lausanne, Switzerland. About 17 years ago she was united in marriage to Mr. Wingert and since then has made her home at Mt. Carroll. She was a woman of unusual intellectual attainments and until her final illness remained a diligent student of literature and languages. Her untimely loss is mourned by hosts of friends. She leaves, beside her husband, one son, Emmert L., aged 13; her mother and sister, Etta, and brother Charles, all of Howard, S. D., and her brothers, Major Amel Laurson of the U. S. army and Philip Laurson of the Massachusetts Institute of Technology. The funeral services will be held at Mt. Carroll on Thursday.

## INTEREST CONTINUES IN SERVICES

## BOY EVANGELIST MEETINGS PROVING SUCCESSFUL— MEET TONIGHT.

The boy evangelist, Eljoseph Raycroft, preached last evening at the corner of Peoria avenue and First street. Two people in the crowd raised their hands for prayer. A meeting will be held this evening at the same place, providing it does not rain too hard. If it does rain the meeting will be held at the West Side church. A meeting will be held tomorrow evening at 7:30. Friends are requested to watch the papers for notices.

## NEW BUSINESS STARTED HERE

## HORTON B. GREEN WILL RAISE FANCY CHICKENS—IS AN AUTHORITY.

Horton B. Green has moved to Dixon from Colchester and will make this city his future home, as he has established a fancy poultry business here. He brought with him 200 head of fine thoroughbred fowls and has started his business at 914 University street. Mr. Green is a member of the American Poultry association, an expert judge and breeder of many years' experience, editor of the poultry department of the Prairie Farmer, published at Chicago, and is also author of poultry articles in many other publications.

## CONGRESSMAN M'KENZIE WAS HERE TODAY

Congressman John C. McKenzie, republican candidate for congress from this district, was in Dixon today for a short time and while here attended the session of the Lee county republican central committee, in the city hall.

## BELL COMPANY HAS PERPETUAL GRANT

COUNCIL IN 1897 GAVE CENTRAL  
UNION COMPANY A LAST-  
ING PERMIT.

## CAN NOT BE ABROGATED NOW

City Attorney Keller Submits Brief  
on Questions Involved to  
Commissioners.

The Dixon city council learned last night that the Central Union Telephone company, known commonly as the Bell, has a perpetual franchise to place poles and wires in this city. The information was imparted by City Attorney Keller, who submitted to the commissioners a brief showing that the resolution passed by the council April 2, 1897, was binding and could not be abrogated by the council. That resolution, which expresses no time limit, is:

Resolved, By the City Council of the City of Dixon, Lee County, State of Illinois, that the right be and the same is hereby given and granted to the Central Union Telephone company, its successors and assigns, to place and maintain upon the streets and highways of said city, the poles, wires and fixtures necessary and convenient for supplying to the public, communication by telephone, or other improved electrical device, upon the following conditions:

Provided that all such poles, wires and fixtures, so to hereafter be located, shall be placed under the direction or authority of the committee on streets and alleys, and that no poles shall hereafter be placed in First street between Highland and Galena avenues, or on Galena avenue between River and Third streets.

This situation was disclosed when a week ago last night the company through its local manager, L. A. Pitcher, asked the council to suspend the placing of poles on Hennepin avenue and on Third street, which poles the company desired to set so that they could remove their lines from Galena avenue and from First street.

The commissioners realized that no time limit was expressed in the resolution, but there was some uncertainty as to its binding powers. Accordingly City Attorney Mark Keller was asked to look into the case. Mr. Keller submitted a number of decisions of the supreme court on cases submitted from London Mills, Chicago, Bellevue and other cities in which the highest tribunal holds that a resolution granting rights to a telephone company cannot be revoked, that a license to use streets becomes a contract after acceptance, that a grant to use streets is not revocable, that a city cannot forfeit property by ordinance and that a city can not repeal an ordinance granting telephone rights, nor can it impose new conditions.

## WINDOWS ATTRACT ATTENTION

## VAILE & O'MALLEY HAVE ARTS TIC DISPLAY OF FURNISHING GOODS.

Vaile & O'Malley have window displays which have attracted considerable favorable comment because of the tasteful manner in which they are decorated and the class of goods shown therein. The background of each window is a pretty landscape, artistically framed and the firm is up-to-date line of fall goods is happily arranged in the foreground.

## SON BORN.

Dixon friends of Mr. and Mrs. C. B. Abbott of Moline will be pleased to learn of the birth of a son, on Sunday, Oct. 6.

## MRS. THOS. DUFFY OF MAYTOWN DIED TODAY

Mrs. Thomas Duffy of Maytown died suddenly early this morning. She was a sister of Philip Clark of Amboy and a sister of the late Jas. B. Clark of Denver, also of Mrs. Jno. Doyle of this city. Obituary and funeral notice will be published later.

Coroner Charles Smith of Amboy was in Dixon today.

## STAR LINE-UP FOR GAME IS ASSURED

MANAGER MILLER SECURES  
GOOD BALL TOSSERS FOR  
CUB GAME.

## LANGE AND MILLER IN THE BOX

"Iron Man" and "Danny" to Have  
Good Support—Seat Sale  
to Open.

Practically every detail of the arrangements for the big exhibition game between the Chicago Cubs and the Dixon Browns next Tuesday has been arranged, and the fans will have a choice line of "dope" to discuss before the great game, the proceeds of which will be used to perpetuate baseball in Dixon.

Manager Charles Miller, to whom the securing of the team that will represent Dixon was commissioned, has completed his work and he has now secured a bunch of ball tossers who know the game and who will be able to give the Chance men a royal battle.

## Lange Will Pitch.

The last man was secured last evening when Pitcher Lange of the Chicago White Sox, known in the American league circuit as "Iron Man" Lange, notified Mr. Miller that he would come to Dixon and pitch against the west sliders. With Lange and Danny Miller of Dubuque, who a few years ago was Dixon's star box artist and who defeated the White Sox in the memorable 1 to 0 game played here Aug. 20, 1909, the Dixon pitching staff will be sufficient to meet the hard hitting Cubs, and the rest of the Dixon team will balance up well with the box artists.

Bob Stratton, who was the main backstop of the Lincoln, Western league team this season, will do the receiving. Tracy, another Dixon boy, first sacker of the Oshkosh champions of the W-I. league, will hold down the initial corner, while Danny Blake (the fans all know him) of Decatur will be on second.

At short Dixon fans will have another Dixon boy in all probability, as Joe Kernan, who has been drafted by the Chicago White Sox, will endeavor to get here for the game. If it is impossible for him to come, however, Weaver of the Sox will be in that position. Leonard of the Des Moines team of the Western league will be on third. The outfield will be a dandy, too. Germany Schaeffer of the Washington American league team will be in center, McCormick of Lincoln in left and Crangle of Streator will occupy the right garden.

## See a Good Game.

With that lineup, every man of whom can hit like a fiend, an interesting time is assured. Messers. Ruelbach and Cheney, who will work for the Cubs. The fans see a chance to slip one over on Chance's pennant chasers, and accordingly will have plenty of opportunity to boast.

## Seats on Sale.

Those in charge have decided to make 50 cents the price of general admission, grand stand seats 25 cents extra. The grand stand is to be platted off and reserved seats will be sold before the game, the seat sale opening at Sullivan's drug store tomorrow evening at 7 o'clock.

## ABE MARTIN

It seems like some folks never begin to travel till they get a bunch of children. What has become of the old fashioned mother that never went to bed till all the children got in?

## COUNCIL VACATES END OF COLLEGE AVE.

ORDINANCE PASSED AT LAST  
NIGHT'S MEETING OF THE  
COMMISSIONERS.

## TO CLOSE POOL HALLS AT 11

Measure Will Be Prepared—Mayor  
Talks of Saturday Night  
Dances.

## WHAT THE COUNCIL DID.

Vacated that part of College Ave. north of River street.

Instructed City Attorney Mark Keller to have Harry Warner, agent for the Keystone building, to have frame addition to the building which was recently built, removed at once.

Instructed City Attorney Keller to prepare an ordinance compelling the closing of the pool rooms and bowling alleys at 11 p. m.

Ordered street department to supervise the setting of new Central Union Telephone poles on Hennepin avenue and Third street.

Discussed Saturday night dances. Passed monthly bills amounting to \$7,368.05.

Without a dissenting vote the city council last evening vacated College avenue north of River street and the Illinois Northern Utilities company will now be free to go forward with the building of their monster central steam power station. Although the company is not mentioned in the ordinance vacating the street, as it is illegal to vacate a street for any set purpose, it is commonly known that the vacation of the street was for the company which proposes to start work on the big station. The action of the council will meet the approval of practically every citizen, as the street is of little practical use to the public, if at all.

## That Covered Porch.

A frame shed, or covered and enclosed porch, which has been erected at the rear of the Keystone building, occupied by Callahan & Whipple, came under the consideration of the commissioners, and it was decided that the affair was in violation of the fire limits ordinance and accordingly City Attorney Mark Keller was instructed to notify Harry Warner, agent for the owners of the building, that the porch must be removed.

## Pool Rooms to Close Early.

The question of the pool rooms and bowling alleys being allowed to remain open until 12 o'clock, while the saloons are compelled to close at 11 o'clock p. m., was also discussed and the commissioners agreed that what is good for the goose is likewise good for the gander. Accordingly the city attorney was asked to prepare an ordinance compelling the closing of these places at 11 o'clock p. m. This ordinance will be filed as quickly as possible and will doubtless pass without any serious opposition.

During the discussion of this matter Mayor Brinton told the commissioners that he had received a number of complaints about the manner in which some of the Saturday night dances are conducted and the police will be instructed to watch these affairs a little more closely.

## May Tax Poles.

City Attorney Keller submitted a brief of court decisions which shows that the council is powerless to stop the Central Union Telephone company from setting poles on any of the streets of the city, and accordingly Commissioner Schuler was ordered to supervise the setting of new poles on Hennepin avenue and Third street in accordance with the request of the company to the council last Monday. The new poles will be set to enable the removal of all poles from Galena avenue and First street.

Mayor Brinton expressed indignation that the city has so little to say regarding the placing of poles, and he openly advocates an ordinance placing a tax on every pole in the city. The question will be talked over among the commissioners, and if it seems advisable such an ordinance will be prepared.

Miss Hazel Stanbrough underwent an operation at the hospital this morning.

## VISCOUNT HALDANE

This is the first portrait taken of Viscount Haldane, former British secretary for war, in the robe and wig of his new office, that of lord chancellor.

## PAUL W. BRETZ DIED IN INDIANA TODAY

## YOUNG MAN FORMERLY LIVED IN DIXON—HAS MANY FRIENDS HERE.

Word has been received by friends here of the death of Paul W. Bretz at his home in Goshen, Ind., this morning. Mr. Bretz was employed as chemist at the Sandusky-Portland cement plant in this city about three years ago and resigned his position to accept a similar one at Hanover, Canada, where he remained one year. He left Hanover to go to Denver, hoping to regain his health. He returned to his home this spring much improved in health and the news of his death was a great shock to his many friends here, who tender sincere condolence to his stricken mother and brothers.

## LENOX SHIPPED TWO LOADS OF POULTRY

W. H. Lenox, local manager of the Sterling Ice & Produce Co., shipped a load of springers to the feeding station at Franklin Grove last evening and a load of hens and ducks to Sterling.

## BAND CONCERT IN NORTH DIXON TOMORROW

The Dixon Marine band held a thorough rehearsal last evening preparing their program for tomorrow evening's concert in John Dixon park. A good program has been arranged and the concert will attract a big crowd should the weather permit.

## Coins The Newest of New Words

## DICTIONARY DESIGNER IS AUTH- OR OF SPIZERINKTUM—YOU NEED IT IN YOUR BUSINESS.

When you were little you used to "play at being things."

Should you now "Backward, turn backward, oh time in your flight" of all the wild fancies you could conjure up, the occupation of a designer of dictionaries and its opportunities to influence the language of your fellow countrymen would probably not be among them. Only think, however, what a fanciful time you could have and the temptation you might yield to in the matter of coining new words.

Now this is the story of a maker of books, who had for nearly 25 years been proof to the lure of becoming an amateur lexicographer, only to yield at the very last minute when urged by his friends to permit to be placed in his new dictionary one of the words he had coined for use in winning success in the business world.

That is the story of the birth of "Spizerinktum," a word which experts claim will live a long and lusty life.

Wherever Frank E. Wright, publisher of bibles, dictionaries and other high class educational works—who has placed his works in the homes of the majority of the "four million"—is known, that brain child of his with the outlandish name is also known.

## REPUBLICANS TO FIRE FIRST GUN

INITIAL MEETING OF COMPANY  
TO BE HELD AT HEADQUARTERS  
TOMORROW.

## DR. CLARK THOMAS THE SPEAKER

Elgin Orator Will Deliver Message  
to Followers of Grand  
Old Party.

The first gun of the republican campaign in Dixon will be fired tomorrow evening at republican headquarters, at the armory, and Dr. Clark S. Thomas of Elgin, one of the leading republican speakers of the state, will be the speaker.

Dr. Thomas will give his auditors one of those good old-fashioned rock ribbed republican speeches and there is no doubt the hall will be crowded to hear him, for the continued attacks of the progressives and democrats have aroused a general interest on the other side.

## Ladies Are Invited.

A special invitation is extended to the ladies to attend this meeting. There will be music to vary the program and it is promised that the evening will be one of interest to all. Dr. Thomas will bring the first of a series of messages from the republican national and state committees. He is thoroughly in touch with the campaign of the Grand Old Party, and everyone should hear him.

## LOFTUS & O'CONNELL IN THEIR NEW BUILDING

Loftus & O'Connell yesterday opened their new saloon on Galena avenue to the public, and an admiring crowd of patrons visited the place during the afternoon and evening. The saloon is one of the most tasty and neatly furnished in this part of the state.

## PLANS COMPLETE FOR THE FANS' FAIR

The Dixon Stars have practically completed their arrangements for their annual bazaar, which will be known as The Fans' Fair, at Rosbrook hall Oct. 21-26 inclusive, and many special features will be announced for the event.

## MARION FARM SOLD.

Martin Whalen of Marion township has sold his farm of 80 acres to J. P. Brechon of South Dixon. The land, which is unimproved, brought \$130 per acre.

When Mr. Wright sends a man on any mission he abbreviates the sense of that masterpiece "A Message to Garcia" into one word of four syllables and the word that is buzzing in the ear of one whom he has charged with a duty to perform is "spizerinktum"—put some spizerinktum in it.

When Kilpling's soldier man told "Guaga Din" to put some "juldee" in it he may have meant the same thing that Mr. Wright meant when he first said "spizerinktum" in the presence of Harry Thurston Peck, Ph.D., Litt.D., LL.D., the authority on language, who edited the New Websterian 1912 Dictionary. Illustrated, which Mr. Wright has just published.

The force of the word so impressed Dr. Peck that he insisted upon incorporating it in the dictionary. Mr. Wright reluctantly consented, and there it is today: "Spizerinktum—vim, go, intense energy, the overmastering will to succeed."

New as it is, and striking as it is, it is not the only new or striking feature of the New Websterian 1912 Dictionary, illustrated, which will greet you after opening the covers of the new limp leather lexicon.

This dictionary is NOT published by the original publisher of Webster's Dictionary or by their successors.

Six coupons and a small expense bonus will get this book, which the Telegraph is giving to its readers.

# Social Happenings

## HOROSCOPE.

September 25, 26, 27, 28 29, 30

Are truthful, conscientious, pure in nature, somewhat prudish, musical, fond of poetry, studious, mathematical, somewhat doubtful of your ability; have an intensity of nature that may mislead. Still, you have immense power for good. You love to read, but if a woman of family, will sacrifice this desire. There are not many loose ends about things in your house.

## Beautiful Hand

Two charming women were discussing one day what it is which constitutes beauty in the hand. They differed in opinion as much as the shape of the beautiful member whose merits they were discussing. A gentleman friend presented himself and by common consent the question was referred to him. It was a delicate matter. He thought of Paris and the three goddesses. Glancing from one to the other of the beautiful white hands presented for his examination, he replied at last: "I give it up; the question is too hard for me. But ask the poor, and they will tell you the most beautiful hand in the world is the hand that gives."

## To Meet Thursday.

The Women's Home Missionary society of the Methodist church will hold a meeting Thursday afternoon with Mrs. Addie Bovey at her home, 321 Fifth street. The ladies will hold a towel shower for the Navajo mission. All members are urged to be present.

## Aydelotte Teaches

How to get well, then how to keep well! This is an age of great discoveries. Advancement has been made in all other fields. It is the time now for a greater humanity. We must learn HOW TO ENJOY LIFE today. It is possible to think yourself into trouble. Many drink themselves into insanity. More eat themselves into misery and disease. But there is a greater life, and HOW TO BE STRONG now that is awaiting those who are awakening to know their natural rights. When you and Fate are no longer friends, a few minutes of my time are yours freely.

DR. W. F. AYDELOTTE, Neurologist and Health Instructor, 223 Crawford Ave., Dixon. Phone 100 for appointments.

## Mendota Guests.

Dr. and Mrs. Worsley and son motored to Mendota Saturday evening. They were accompanied home by Mrs. Adams and Mrs. Lavina Farling and daughter Carolyn, who are the guests of the Worsley home.

## At Rutt Home.

## Motored Here

Mr. and Mrs. Jonas Baer and daughter Hazel and Miss Fannie Gish of Sterling motored to Dixon Sunday.

## Entertained in Sterling.

Misses Margaret Lyon and Frances Morey of Dixon were entertained Sunday at the home of friends in Sterling.

## Visei-Wolford.

Miss Martha Visei and Samuel E. Wolford were married Saturday evening, Oct. 5, 1912, in the Evangelical church at Niles, Mich. Rev. Kahn, pastor of the church, performed the ceremony. The principals were attended by Miss Anna Visei, sister of the bride, and John S. Dornblaser of Chicago, a personal friend of the groom.

After the ceremony a bounteous wedding dinner was served at the home of the bride's mother, Mrs. John Visei, where a large party of relatives and friends of the bride and groom had gathered to extend congratulations.

Mr. and Mrs. Wolford left Niles on the 12 o'clock train for South Bend, Ind., and from there they will go to Chicago to reside. Mrs. Wolford has lived many years in Niles. Mr. Wolford was located there for several years and there made the acquaintance of the lady who is now his wife. They both have many friends who turned out en masse to witness their departure, shower them with rice and placard their baggage.

Mr. Wolford is known in Dixon as "Uncle Sam" and was formerly in business here. He is now manager of the dining room in the Exchange restaurant at the Union Stock Yards in Chicago.

Hoff.

The meeting of the congregation will be held tomorrow evening at which time there will be an election of officers, and reports of the different departments and other business of importance.

## This Will Stop Your Cough in a Hurry

Save 22 by Making This Cough Syrup at Home.

This recipe makes a pint of better cough syrup than you could buy ready made for \$2.50. A few doses usually conquer the most obstinate cough—simple as it is, no better remedy can be had at any price. Mix one pint of granulated sugar with 1/2 pint of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (fifty cents' worth) in a pint bottle; then add the Sugar Syrup. It has a pleasant taste and lasts a family a long time. Take a teaspoonful every one, two or three hours. You can feel this take hold of a cough in a way that means business. Has a good tonic effect, braces up the appetite, and is slightly laxative, too, which is helpful. A handy remedy for hoarseness, croup, bronchitis, asthma and all throat and lung troubles. The effect of pine on the membranes is well known. Pinex is the most valuable concentrated compound of Norwegian white pine extract, and is rich in mineral and all the natural healing pine elements. Other preparations will not work in this formula. This Pinex and Sugar Syrup recipe has attained great popularity throughout the United States and Canada. It has often been imitated, though never successfully. A guaranty of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

## Palor Club.

The Ladies of the O. E. S. Parlor club who met in Masonic hall yesterday afternoon to be guests of three unknown hostesses are loud in praise of these royal entertainers.

Each guest arrived secretly determined to know in a short time to whom she was indebted. She changed her mind several times during the afternoon, however. At 4 o'clock a large box was delivered in the hall and placed in the midst of the ladies. It seemed to contain refreshments. The first package pulled forth was marked, The Prize. Then came a package of envelopes on which were the type-written names of those present. The contents of these created much amusement.

A letter addressed to the president requested that each guest make a written guess at who were the hostesses. The prize was awarded to Mrs. Adolph Eichler, who decided that the three officers of the club, Mesdames Frizelle, Brown and Kent were the only three who could keep a secret so well.

At 5 o'clock the guests were invited to the dining room where a delicious luncheon awaited them. Oh, F—, B—, K—. Allow me to say— And I'm sure that I speak— For the party, If you ever decide More fun to provide, You'll have our support Most Hearty

A GUEST.

## SAVED FROM AN OPERATION

How Mrs. Reed of Peoria, Ill., Escaped The Surgeon's Knife.

Peoria, Ill.—"I wish to let every one know what Lydia E. Pinkham's Vegetable Compound has done for me. For two years I suffered. The doctor said I had a tumor and the only remedy was the surgeon's knife. My mother bought me Lydia E. Pinkham's Vegetable Compound, and today I am a well and healthy woman. For months I suffered from inflammation, and your Sanative Wash relieved me. I am glad to tell anyone what your medicines have done for me. You can use my testimonial in any way you wish, and I will be glad to answer letters."—Mrs. CHRISTINA REED, 105 Mount St., Peoria, Ill.

Mrs. Lynch Also Avoided Operation.

Jessup, Pa.—"After the birth of my fourth child, I had severe organic inflammation. I would have such terrible pains that it did not seem as though I could stand it. This kept up for three long months, until two doctors decided that an operation was needed.

"Then one of my friends recommended Lydia E. Pinkham's Vegetable Compound and after taking it for two months I was a well woman."—Mrs. JOSEPH A. LYNCH, Jessup, Pa.

Women who suffer from female ills should try Lydia E. Pinkham's Vegetable Compound, one of the most successful remedies the world has ever known, before submitting to a surgical operation.

## BOB'S RACE FOR LIFE

ALL SPRINT RECORDS BROKEN BY YOUNG MR. DINKINS.

According to the Old Codger, He Traveled Fast, but the "Snake" Was a Close Second When He Reached Home.

The dry goods box and nail keg brigade were loafing luxuriously in the sunshine that was shedding warmth and lassitude on the platform in front of the village emporium, postoffice, etc. They were engaged, as usual, in the pleasant and unperilous business of assassinating time.

"Snakes'll be comin' out uv th' woods, soon," yawned a young yep who was expending first-class farm-hand energy in aimlessly whittling a hickory stick.

"Did any uv you-all ever heer uv Bob Dinkins' race for life 'fore his pap left Troublesome Bottoms an' went west?" inquired an old codger, with a small gray goatee.

It seemed that no one had heard of it, so the old codger proceeded to narrate:

"I reckon' Bob run 'bout a mile in th' same length uv time 't'woud take to wind a watch. There wuz a heap uv black snakes that spring. 'Peared that durin' th' winter all th' snakes in th' woods had turned black. Bob wuz skeered uv snakes, an', nacherly, wuz in a highly nervous state most uv th' time. He imagined ev'ry thing he saw movin' was a snake."

"Well, Bob, he took th' horses out to th' pasture one Sunday mornin', pulled th' halter off uv th' one he wuz leadin', slung it over his shoulder, an' started back to th' barn. He hadn't gone fer when he happened to glance behin' him."

"Wow! A long black thing wuz a-slidin' right up to his heels! He let out a whoop lack a Soo Indian an' struck out down th' path, jes' fairly splittin' th' wind wide open."

"When he'd run 'bout 500 yards he took a quick squint over his shoulders to see if he'd got away from it. He hadn't. There it wuz, spinnin' right along after him. Bob let out more yell's an' ran lack a dawg after a rabbit. He done his best to git away from th' thing that wuz pursuin' him, but he couldn't gain an inch on it. He wuz barefooted, too, an' ev'ry minit he expected to feel it nab him by th' heel."

"His hat flew off an' his hair stood on end. His daddy an' mammy run out to meet him, an' when he come rippin' into th' stable lot, hoillerin', mammy drapt lack she'd been shot, clean into a dead faint. She thought it wuz all over with her darlin' son."

"Bob went tearin' round th' lot lack a colt shet away from its ma, stompin' an' kickin' an' yellin' fer 'em to kill it. His daddy gazed at him, powerless lack, till he saw what wuz th' matter. Then he got a healthy piece of hoop-pole an' went for his heroic son."

"Th' snake had hung its teeth in his breeches leg, I s'pose?" asked a fellow with a pair of green goggles.

"Snake!" snorted the old codger. "I didn't say 'twas a snake, did I?"

"But it was a snake that wuz after him, wuzn't it?" demanded a gawky chap who had his mouth open.

"Not on yer sweet life," replied the old codger. "It wuz nuthin' but th' long, black halter strop. It had slipt off his shoulder an' wuz draggin' in th' path behin' him. Th' young galoot saw it an' thought it wuz a snake!"—New York Times.

## Betrayed by His Collar.

References which appeared satisfactory had been placed in the hands of the renting agent, who was on the point of declaring them unnecessary owing to the general appearance of the applicants, when suddenly he exclaimed: "By the way, I'm sorry, but I don't believe I can let you have that flat after all. It's been spoken for."

When the possible tenants had departed indignantly the agent said: "Do you know what made me change my mind so suddenly? It was their dog's collar. In lifting the little fellow to pet him I read the inscription on his collar, and saw it was engraved with four different addresses, all of which had been put on since last tax day. Three of the addresses had been scratched out. If those folk had secured my flat another would have been scratched out and a fifth added by day after tomorrow. A dog's collar marked up like that shows that his owners don't stay in one place long enough to get a new plate on his collar between moves, and I don't care to rent to transients."

## Power of the Mind.

Some people give up all mental effort as soon as they get sick or afflicted, but there are some minds that no pain or suffering can subdue. The most powerful warship afloat, which was launched in the Thames in England last February, was built by a man who can neither sit nor walk. The most famous of our racing yacht designers is blind, but he could build a boat that was good enough to defend the America cup year after year. The head of the Thames Iron Works company that built the Thunderer is a victim of chronic rheumatism and passes his days lying on a trundle bed upon which he is wheeled all over the immense works and oversees everything that is going forward. He knows every foreman in the shops and has the design of every piece of machinery by heart, and they point to him as a wonderful example of the truth of the old adage, "The eye of a master can do more work than a thousand hands."

## Strong Healthy Women

If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unfitted for motherhood. This can be remedied.

## Dr. Pierce's Favorite Prescription

Cures the weaknesses and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, virile and elastic.

"Favorite Prescription" banishes the indispositions of the period of expectancy and makes baby's advent easy and almost painless. It quickens and vitalizes the feminine organs, and insures a healthy and robust baby. Thousands of women have testified to its marvelous merits.

It Makes Weak Women Strong. It Makes Sick Women Well. Honest druggists do not offer substitutes, and urge them upon you as "just as good." Accept no secret nostrum in place of this non-secret remedy. It contains not a drop of alcohol and not a grain of habit-forming or injurious drugs. Is a pure glyceric extract of healing, native American roots.

## HONEST TREATMENT

"YOU PAY FOR RESULTS ONLY." Dr. Guthrie the Successful Specialist Who Has Cured So Many a Dis- eased Men, Will Be at Nachusa House.

FRIDAY, OCT. 11th 12th

And Return Every Four Weeks, From 11:30 a. m. to 8 p. m.

## CONSULTATION AND ADVICE FREE.

Consult me in strictest confidence if you are afflicted with any con- tracted or inherited disease. Many men from fear that their troubles may become known by consulting a physician neglects the early symptoms of disease which if properly treated in the beginning would avert a serious chronic malady and save themselves much trouble, time, money, and annoyance in after years. I have cured hundreds of men of diseases that were thought incurable, and if you have been unsuccessfully treated don't lose hope of recovery until you have seen me and gotten my opinion of your case, and I tell you that your malady is an incurable one I will be frank with you and if I see that I can do you no good will tell you so. I never hold out false hopes to incurables. Charges are reasonable, my cures are lasting and I want you to pay for results only.

## WEAK MEN

Cured Secrecy

What I want is men who have tried in vain to be made strong again I desire to explain why and how any such case can be quickly relieved and speedily cured by my methods, which can be done in most instances in a few weeks at longest and in any case for a small outlay of money at most.

## LOST VITALITY

Cured in a few weeks, improvement from the start, if you suffer from loss of energy and ambition, feel tired when you arise in the morning, lame back, blindness or spots before the eyes, and feel you were not the man you once were, I will cure you for life.

VARIKOSE—Knotted Veins Cured by absorption, no pain. The enlarged veins are due to pumps, bicycle or horseback riding, if you for life.

## DIS-EASED MEN

Cured Forever

do not claim to cure a case in a few days then take weeks to relieve it and months to cure it, but I do claim, and can prove it, that I can cure forever any diseased man who will come to me in time. My method is scientific and has only been based as such after years of trial and a vast experience.

## BLOOD DISORDERS

Overcome in 30 days, or no pay. Symptoms overcome in 17 to 21 days without chemicals or poison. If suffering from ulcers, sore mouth, or throat, falling hair, bone pains, come and I will drive the poison from your blood forever by my New System Treatment.

IN MEMORIAM.  
Water W. Question: Beloved child of W. B. B. and H. A. B. Departed this life about six months ago while entrusted to the tender nursing care of the city council. Believed to have died from neglect while its nurses gossiped about other things. Friends please omit flowers.

Having gotten the above beautiful thing out of our system, we will now turn to the more common things of life and express a word of sympathy for that progressive petition. It has surely fallen into unfriendly hands.

Who would have thought that the absence of a few numbers could make such a difference.

And it's really shocking to see the smiles on the faces of republicans.

The usual 8 to 5 that Dixon beats the Cubs. Any takers?

Tummy-tum; tumty-tum. A Freeport girl, Blanche Tumms, has been married.

Impossible.

She was a very dignified maiden lady and she entered a dry goods store in Dixon yesterday to make some purchases.

"If you please," she said to the clerk, "I should like to see some hose."

"Yes'm," said the clerk, who was exceedingly bowlegged, leading the way to the hosiery department, "just walk this way."

The lady glared at the waddling figure.

"I can't," she replied.

Redd—It's a funny thing about wood.

Greene—What's so funny?

"Why, when it is green they put it through a long process to overcome the greenness."

"Certainly."

"And then they sometimes go and paint it green again."

**IMAGINARY TALKS IN FRANCE**

Attitude of Rich Americans Toward French People Is Said to Be Thus Revealed.

GH Blas reports an imaginary conversation at the Deauville Casino, the participants being William K. Vanderbilt, Frank Gould, Clarence H. Mackay and James Gordon Bennett, says the Cincinnati Commercial Tribune.

"What attracts me to France," says one, "is the charm and ease of life the traveler finds here, which, however, is not at all real French life. Do you suppose all French people pass their time as we do during our visits, dining amid flowers and black coats?"

"Certainly not," replied the second, "French life, except at the gay resorts, is most quiet and well regulated—even economical. The French know how to live at home, and very prudently when it is necessary, but they know how to live outside of home amid elegance and gaiety when they choose."

"Then the real Frenchman is not here in Deauville?" comments the third member of the party.

"If only Frenchmen, such as we see here existed," said the fourth, "there would be no more France. This same Frenchman whom you see favored by fortune will go home in the evening, quietly put on his slippers and dine on a round steak and a bottle of mineral water. The Frenchman knows how to enjoy life without going to extremes. I remember many restaurants in foreign countries where Russians, Englishmen and Germans ignore the art of bearing themselves with grace and neatness. Not so with the French. Amused, gay and frivolous at times in appearance, they never lose their gracious smile and air of distinction. Whether at a luxurious place like this or on the boulevard during a popular fete the Frenchman always preserves his good humor, for he knows how to live."

GH Blas leaves the quartet, saying, "Guess which part of the conversation belongs to each?" and incidentally remarks that the expressions represent the combined wisdom of \$3,000,000,000.

**Qualities of a Lady.**

One of the first qualities of a lady is a low voice. Not a whispering voice, one must speak loudly enough to be understood. One reason why some people have to talk loudly in order to make themselves understood is that they do not articulate plainly. Pronounce your words clearly and carefully, round out each syllable and even though you speak in a low voice you will be understood. Do not talk too rapidly. A lady never gives the appearance of being hurried, and because she is leisurely the cultured woman never forgets the little courtesies which she owes to others. The courtesies are shown in a very quiet, unassuming manner, for the lady never cares to attract attention to her own actions. Neatness of dress is one of the hall marks of the lady. The girl who wears fashionable top clothes and torn, untidy underclothes need not expect to earn the title of lady. The refined girl keeps her person and her possessions neat, no matter if they are not seen by another person beside herself. She always dresses in good taste. Both her dress and her manner are quiet and reserved in public.—Exchange.

**Laws Govern Austrian Service.**

A new law for lower Austria, containing various regulations concerning servants, has gone into force, replacing one over a century old. The first provision of the new law decrees that servants must no longer be called "servants," but "employees." The employer must feed the servant properly, and the servant is forbidden to chatter or gossip to other servants about the private affairs of the family. It is not stated how this provision shall be enforced. Girls are legally entitled to go out for seven hours once a fortnight. The mistress of the house is no longer forced to write a "character" of "truthful, honest and industrious" in the "book" of a dismissal servant. In the past failure to do this meant possible proceedings for libel. The mistress may now leave "character" blank.

**New Potato Disease.**

A serious canker disease is reported to have developed in the potato crop of Great Britain and Continental Europe, which is not only affecting the farmlands on which potatoes are grown, but is also decidedly injurious to the health of the consumers of affected potatoes. The disease is characterized by nodule excrescences, which are often larger than the potato itself. Boiling does not destroy the injurious properties. It is known that a potato canker has found its way into Newfoundland with potatoes imported from Europe, but no such disease has yet appeared in Canada, nor, so far as known, in the United States.

**Woman's Misdirected Talents.**

Ex-Chief of Police Byrnes, the famous New York detective, says that he "never knew a better man" than Miss Ellen E. R. Peck, which, translated from the police vernacular, signifies that in all his varied experience he never had to do with a more skillful swindler than the woman, now in her eighty-second year, whose latest sentence of ten years imprisonment was commuted by Governor Dix. She would probably have made a first-class "captain of industry" if her talents had been so directed.

**Wellesley College in Lead.**

Wellesley college is said to have more graduates in the mission field than any other woman's college in this country. Gertrude Chandler, of the class of 1879, now Mrs. Mychoff, was the first Wellesley missionary in the field. She went to Bombay immediately after taking her degree in the first class graduated from Wellesley. The college is represented in the mission field of every country in Asia with the single exception of Korea. There are Wellesley missionaries scattered through South America, Spain, the Philippines, Mexico and Africa.

**Finance Has No Boundaries.**

Finance nowadays is limited by no national boundaries. American newspapers contain advertisements of a "City of Tokio (Japan) Loan" for the purchase of that city of electric tramways and electric lighting systems. The loan, amounting to about \$45,000,000, is apportioned between New York, London and Paris.

**SHREWD IDEA OF DIPLOMAT**

Where Russian, Officer of Embassy Proved More Than a Match for Abdul Hamid.

Diplomatists abroad tell how a distinguished member of the Russian corps diplomatique cleverly outwitted Abdul Hamid, the late Sultan of Turkey. The Russian displayed a curious ingenuity in introducing the business of his country in the guise of personal pleasure.

It appears that the Sultan had absolutely refused to grant an audience to any member of the diplomatic body at Constantinople and that during the period in question Abdul Hamid spent the greater part of his time in cock-fighting, an amusement whereof he was passionately fond.

The Russian heard that his imperial majesty stood in need of fresh birds to supply the place of those killed in fight, whereupon the wily Muscovite procured a fine-looking white fowl of the barnyard species, caused it to be trimmed and spurred to resemble a gamecock, and sent it in a richly decorated cage to the Sultan.

The ruse was successful, but the Sultan, at first delighted with the gift, soon sent for the diplomatist to explain, if he could, why his bird had shown no inclination to fight.

The Russian went, examined the bird in the presence of Abdul Hamid, and with great astonishment and regret acknowledged that it was quite unable to cope with the royal gamecocks, which were undoubtedly of a superior breed.

A conference followed on the subject of gamecocks in general; and when this was finished the Muscovite succeeded in drawing the Sultan in a mood for conversation of a different character, and in time adroitly introduced the political matter he had so long awaited an opportunity to discuss. After a long interview he returned to his embassy triumphant over his colleagues.—Harper's Weekly.

**GRAVE CAUSE FOR DISPUTE**

Romanticists and Others Have Opportunity to Squabble Over This Happening.

The Whims will have upset the theory of the cynics that romance is dead in the world. Here is an innkeeper's daughter who receives a fortune of \$500,000 just for being kind to an old man. In all her dreams of the future she never thought of being able to present to the Prince Charming that would eventually come along such a princely dowry. She went about her work delivering the milk and cream from her father's dairy, little thinking that the old gentleman, who year after year was her father's guest, was all along planning to make her a rich heiress as a reward for her little kindnesses. The picture is idyllic. Unfortunately, some of the rightful heirs of the deceased multimillionaire fail to see the poetry of it and have already given notice of a contest. There is a son who has been cut off with a paltry \$200,000 and there are two grandchildren who have been entirely forgotten. In the case of the son the will is particularly significant, since the relative smallness of the amount can be traced to the father's disapproval of a marriage that was wholly romantic. The cynics may still claim that their contention is supported by the courts.

**Lament Religious Apathy.**

In Japan all kinds of Christians are lamenting the religious stagnation that seems to have settled on the country, says a writer in America, a Roman Catholic paper. Of the 65,000 Catholics, 40,000 are descendants of the converts of the seventeenth century, and the Greek Catholics have only 20,000 followers. "After 40 years of evangelization there are only somewhere between 50,000 and 100,000 Protestants of all sects," says the writer, who adds that the Japanese are not irreligious, but "like other peoples they are suffering from the religious apathy and unconcern of the times. Just as in Europe and America, the modern Japanese adore the golden calf and, as elsewhere, are struggling for money and place, the natural result of the adoption of a materialistic civilization."

**Wellesley College in Lead.**

Wellesley college is said to have more graduates in the mission field than any other woman's college in this country. Gertrude Chandler, of the class of 1879, now Mrs. Mychoff, was the first Wellesley missionary in the field. ## WHO MADE FOOTPRINTS

QUESTION THAT HAS SCIENTISTS  
IN A QUANDARY.

Undoubtedly There, in a Solid Rock at  
Croton, N. Y., But How They  
Came There is Something That  
Puzzles the Wisest.

Mysterious footprints in the solid rock on the east and west banks of the Hudson at Croton, N. Y., have puzzled the scientists, who believe them to have been made by a primeval man before the Stone Age. On the east shore, along the old Albany post-road and at the bottom of a steep hill belonging to the A. P. Gardiner estate, lies a huge boulder shadowed by tall trees. Its smooth surface bears the imprint of a pair of human feet placed side by side, as if a barefooted man had walked down the hill and stood on the spot while the stone was still soft and yielding from nature's crucible. Every toe is clearly defined, and judging from the mold he left in the granite the foot of this ancient man was both large and shapely. Behind the footprints, all the way to the top of the rock, are a series of peculiar indentations such as the links of a heavy chain would make on soft earth. Exactly opposite, on High Tar mountain, on the other side of the Hudson, the footprints again appear on the rock, but with the heels turned toward the river, as if the man was traveling away from it due west. By actual measurement the footprints on both sides of the river correspond in every particular and were undoubtedly made by the same pair of feet.

Many weird and wonderful legends have been read from the footprints in the rock. One of these attributes them to the devil, who was chained up in Connecticut for a number of years, but finally escaped and fled into New York. Dragging his chain after him, he paused on the boulder at the foot of Hessian Hill to rest before he continued his flight to the vast Adirondack wilderness. The indentations in the Hessian Hill rock are pointed out as the marks of his chain, and the footprints on High Tar as further corroborative evidence of the truth of this tale. Another story relates that a cave man was approached from the rear by a terrible many-legged serpent as he stood upon the boulder, and that he was so frightened he leaped clear across the Hudson and landed on the other side. The indentations are supposed to have been made by the serpent's legs, which were in a row, one behind the other, Indian file.

A famous professor on first viewing the footprints advanced the theory that they were made by the "missing link" before he shed his caudal appendage, which trailed in the prehistoric clay behind him while he scanned the surrounding landscape for something good for breakfast. This accounted for the indentations and scored one for the Darwinian theory. The devil legend seems to have hit the public fancy, though, for the big boulder at Hessian Hill is known as the Devil's Rock, and Croton people point to the strange fact that nothing will grow in the unholy footprints, while the surface of the rock elsewhere is covered with gray-green lichens and thick moss. The Mohegans, who built their signal fires on the top of Hessian Hill before the first Dutch trader settled there to give rum and firearms for furs, regarded the giant boulder with deep veneration, and believed the footprints to have been made by the Great Spirit when he created the world.

**Too Cautious.** "There goes Bilfurs. He never does anything on a bet or a dare." "A conservative person." "Yes. In fact, he's so conservative that he never does anything on time."

Prizes Are Seats at the Opera House for Lyman Howe's Great Show—Girdle the World With Him That Night.

In our issue next Thursday we will publish a remarkable composite illustration. It includes 33 of the most famous people of this age. It offers an excellent test of the general knowledge and memory of any man, woman or child. The object of this newspaper is to ascertain just how keen is the memory of its readers.

All of the portraits in the illustration have been published so often and so extensively that you will no doubt have little difficulty in recognizing all or nearly all of them. However, you may find it more difficult to name them correctly than you will have in recognizing them the instant you see the illustration. Most people remember faces readily, but not names, because the impressions received by the eye are more enduring than those made on the mind or memory. At first thought this may seem a curious statement to make, but upon reflection you will doubtless admit that it is supported by your own daily experiences. If the fact seems curious to you it is just because the experience to have memory fail us when eye or ear remind us, is so very common that it never occurred to us to think of it in just this way. For instance, how often have you heard a familiar musical refrain, or seen a familiar face and stopped and tried your best to name it but without success? How often have you said "It's on the tip of my tongue" and how exasperated you felt because your memory proved so elusive that you simply could not name it? The illustration to be published in our issue Thursday, Oct. 10, constitutes an admirable means to test how well your memory will serve you and whether you remember not only the faces you often see in print, but what is equally important, also names, or whether your memory is somewhat unreliable on being put to test, like that of the westerner whom the late Bishop Potter met on his travels. The bishop became conscious of the continuous string of the man in the opposite seat until he could not suppress his curiosity any longer, and so leaning across the aisle, he said, "Seems to me, stranger, I've seen your picture in the papers."

"Perhaps you have," answered the genial bishop, "my portrait is published frequently."

"Well, then," drawled the westerner, "what was you cured of?" The portraits included in the picture to be published next Thursday, however, are not those that adorn the advertisements of patent medicines. On the contrary they are all portraits of real celebrities.

Each portrait of the 33 in the illustration will be numbered. All you need to do is to place numbers from 1 to 33 on ONE SIDE of a sheet of paper and opposite each number write the name of the portrait to which the number refers. Then address your list to the Memory Test Editor, Telegraph.

Senders of the 20 lists nearest correct will each receive from this newspaper a reserved seat ticket to girdle the globe with Lyman H. Howe at the Dixon opera house Oct. 15th.

Mr. Howe's travel festival has been selected as a most appropriate medium to reward senders of the 20 nearest correct lists, because Mr. Howe's scenes of world travel make such a direct and pleasing impression on the eye that they endure much longer than they would if you merely read printed descriptions and then had to depend on an unreliable memory to recall them. Furthermore Mr. Howe's new program is as cosmopolitan in its nature as the composite illustration to be published in our issue next Thursday.

Paris, the Beautiful City, including the famous fountains of Versailles, all in nature's own gorgeous tints; Our Friends, The Bees; whaling; new studies of animal life; a thrilling adventure with a ferocious lion culminating by the king of beasts making a terrific bound for a horse which is saved only by a single well-aimed shot; an exciting race between a hydroplane and an 800 h. p. motor boat at Monte Carlo and the rivers of France in natural colors are only a few of the many features to be presented by Mr. Howe.

### Hail, Beefsteak Tomato.

The man who invented the beefsteak tomato is clever. The name was a happy thought. In this time of high prices, when many a family has almost forgotten how beefsteak looks, at least in its serloin or porterhouse cuts, this comparatively new and wholly substantial tomato is a valuable addition to the sum of human happiness. The name is satisfying. The vegetable itself is still more so. Not every large, smooth tomato is a true beefsteak. The latter is crimson in color, not vermilion—if you have a good eye for shades. The skin of a beefsteak tomato is close fitting, never loose, the seeds are few and the flesh is solid meat. Half a pound of beefsteak tomato is almost as much of a meal as half a pound of filet du boeuf, also as succulent and juicy. Tomatoes are not prohibitive in price at this time, and they are good three times a day. Don't slice them. Give each individual a whole one and receive his blessing.

### Often True.

Signor Marconi, in an interview in Washington, praised American democracy.

"Over here," he said, "you respect a man for what he is himself—not for what his family is—and thus you remind me of the gardener in Bologna who helped me with my first wireless apparatus."

"As my grandmother's gardener and I were working on my apparatus together a young count joined us one day, and while he watched us work the count boasted of his lineage."

"The gardener, after listening a long while, smiled and said: 'If you come from an ancient family, it's so much worse for you, sir, for, as we gardeners say, the older the seed, the worse the crop.'"

## FOR A BAD STOMACH PAPE'S DIAPEPSIN

Time It! In Five Minutes You Will  
Wonder What Became of the Gas,  
Sourness and Dyspepsia.

Sour, gassy, upset stomach, indigestion, heartburn, dyspepsia; when the food you eat ferments into gases and stubborn lumps; your head aches and you feel sick and miserable, that's when you realize the magic in Pape's Diapepsin. It makes such misery vanish in five minutes.

If your stomach is in a continuous revolt—if you can't get it regulated, please, for your sake, try Diapepsin. It's so needless to have a bad stomach—make your next meal a favorite food meal, then take a little Diapepsin. There will not be any distress—eat without fear. It's because Pape's Diapepsin "really does" regulate weak, out-of-order stomachs that gives it its millions of sales annually.

Get a large fifty-cent case of Pape's Diapepsin from any drug store. It is the quickest, surest stomach relief and cure known. It acts almost like magic—it is a scientific, harmless and pleasant preparation which truly belongs in every home.

## Doctors Use This for Eczema

Dr. Evans, Ex-Commissioner of Health, says: "There is almost no relation between skin diseases and the blood." The skin must be cured through the skin. The germs must be washed out, and the skin must be made healthy. This compound is known as D.D.D. Prescription for Eczema.

Dr. Holmes, the well known skin specialist writes: "I am convinced that the D.D.D. Prescription is as much a specific for eczema as quinine for malaria. I have been prescribing the D.D.D. remedy for years." It will take away the itch the instant you apply it.

In fact, we are so sure of what D.D.D. will do for you that we will be glad to let you have a \$1 bottle on our guarantee that it will cost you nothing unless you find that it does the work.

**Duration of Twilight.**

The duration of twilight, which depends primarily on the height of the atmosphere, varies with the latitude of the place, the season of the year and the elevation of the observer. In the higher latitudes it lasts longer, because the sun is inclined at a more acute angle in setting. Near the equator at sea level it does not last more than half an hour, while in latitude 40 degrees it continues for from an hour and a half to two hours. At high altitudes, where the amount of air above the observer is small, the period is much reduced. The length of time may be computed from the fact that twilight continues until the sun is 18 degrees below the horizon at sea level. It follows that at about 50 degrees north latitude in midsummer there is twilight all night.

Officer 666 does not succeed in capturing the picture thief in the play of that name, but his efforts to do so carry him through three of the funniest acts that have ever been devised by an American playwright.

and over so many laughing hurdles that this particular sleuth is voted the finest blue coat that ever swung a night stick.

"Officer 666" is the play hit of the year and the announcement that Cohan & Harris are to present it at the Dixon opera house has been the

means of arousing a decided flutter of expectancy among playgoers.

### FAMILY THEATRE

The dog posing act with their master, Ted Bailey, at the Family is one of the prettiest and most clever acts ever exhibited in Dixon. They look like marble statues against the green velvet curtain and brought round after round of applause. Mercer & Johnson in a clever skit won the house and received several curtain calls.

### WE NEARLY SAW DOC COOK.

Dixonites had a narrow escape Sunday from getting a chance to see the famous Dr. Cook, explorer and alleged, by himself at least, discoverer of the North Pole.

The Doctor is making a tour of the cities in this district of the U. S. and expected to come to Dixon on the evening of October 15, next week (the day the Cubs play here) but the management of the opera house couldn't take him because of the fact that they are to have the Lyman H. Howe travel pictures here on that date.

## ROSE ABOVE HANDICAP

### POSTHUMOUS CHILDREN WHOSE NAMES ARE FAMOUS.

Birth of Child of John Jacob Astor Has Aroused Interest in the List, Which Contains Many Persons of Note.

The birth of a posthumous child of John Jacob Astor arouses especial interest and sympathy because of the tragic death of the father in the Titanic disaster. Yet all posthumous children excite such sentiments. Some of these children have moreover attracted additional attention from the world in after life through their own achievements.

Alexander the Great has been said by some historians to have been born after the death of his father, but according to other authorities Philip of Macedon lived to enjoy the companionship of his son for several years. It may be that Alexander's stepbrother was a posthumous child, but that has not been proved.

Ben Jonson, the Elizabethan dramatist, was born in 1573, a month after his father's death. He was fortunate in acquiring a stepfather who was a good friend to him and gave him an excellent education.

Thomas Herbert was of posthumous birth, says his elder brother, Lord Herbert of Chisbury. He is remembered chiefly as the brother of Lord Herbert of Chisbury and of George Herbert, the poet.

Early in the seventeenth century another child came into the world under similar conditions. This was Abraham Cowley, the English poet. His father, who had been a grocer in humble circumstances, died shortly before the birth of the son. Thanks to the unflinching struggle and devotion of his mother the boy received a good education and his poetic genius had opportunity for development.

Dean Swift was born a few months after his father's death. Kindly disposed relatives helped his mother with his upbringing and education.

Adam Smith, author of "The Wealth of Nations," put in his appearance in this world some four months after the death of his father.

Still another English poet was a posthumous child. This was Thomas Chatterton, who was born in Bristol about the middle of the eighteenth century.

Andrew Jackson, seventh president of the United States, was born in a little log cabin on the border line between North and South Carolina. In that same cabin his father, who had come to America from the north coast of Ireland, died a few days before the birth of his son.

Rutherford Birchard Hayes, the nineteenth president, was another posthumous child. He was born in October and his father died in the July preceding.

The present king of Spain, Alfonso XIII, was born after his father's death.

Mary Queen of Scots just escaped posthumous birth, her father dying when she was a few days old. Richard Wagner, the composer, was also left fatherless very soon after his birth.

### Europe's Rose Gardens.

Though the rose is grown for trade in many parts of Europe, its culture for commercial purposes is now principally monopolized by the vast rose gardens of Grasse in France and of Kasanlik in Bulgaria—the rose gardens of Europe, par excellence—and the manufactures produced from them supply in a great measure the markets of the world. Here acres of roses take the place of corn, vines and orchards of other lands, and some idea of the French trade may be obtained when we learn that the gardens of Grasse, Cannes and the neighboring villages yield nearly 2,650,000 pounds of roses annually; on some days as many as 150 tons of blossoms are picked in the province of the Alpes Maritimes. The beautiful varieties, so much prized by gardeners, are useless for commercial purposes, and the only plant used is the Cabbage Provence.

### Let Them Down Lightly.

They were strolling players—at least, that's what they called themselves. Their talent was as small as their efforts were great. To add to this, they arrived at the little country town minus their costumes and rather hazy as to their lines. However, the performance took place, albeit it was a "frost" of the worst description. They expected a fearful roasting from the reporter of the paper, and there was a rush the next morning for the local sheet. But, with true hospitality to strangers, the following paragraph appeared: "The company appeared last night at the Town Hall in 'East Lynne.' The ventilation of the theater was perfect, and the orchestra rendered a number of pleasing selections."

### Woman's Work in the World.

Dr. George Draper of the Rockefeller Institute, discussing woman's work in the world, said: "And this, mind you, leaves child-bearing out of count. Two women eat one day by a windswept ocean pier. The first woman had three beautiful children, the other was childless. The childless woman, gazing wistfully out over the tumbling blue water, said, 'I'd give ten years of my life to have three such children as yours.' Well, three children cost about that," the other woman answered gravely.—San Francisco Argonaut.

## MAKE LIVING BY THEIR WITS

American Adventurers Who Have Gotten Wealthy Through Shady Deals in South America.

Ever hear of Jim Dugan of Curacao? Well, Jim started a revolution in Central America some years ago, and was put out. He landed in Curacao with a stew and a \$5 gold piece. With the money he bought a lottery ticket, and won a prize. While he still had the money a man who owned a saloon, and who was looking for a sucker, sold out to him. But Jim has flourished. He got hold of a seal belonging to an American life insurance company, and he stamps his letters with that, and calls himself the Irish consul. When I was in to see Jim this time I found that everything passed as currency over his bar. He has a drawerful of such things as false teeth and glass eyes, and one morning I saw a man come in and ask for liquor and then calmly take out his eye and put it on the counter.

But in Buenos Aires there lives and operates an American who is the prototype of J. Rufus Wallingford. He makes a specialty of turning out old masters and selling them at fancy prices to the wealthy Argentines, who like to blow their money for works of art. This chap got hold of a Frenchman who can paint, and he does the actual work, and they dry them with electric fans. When I was there the electric fans were playing on three Van Dykes. There was an elderly woman, a bit daft, who fancied she was stuck on the president of Argentina. What does the American do but get hold of a man who knows the old lady, and cause him to persuade her that the president is partial to Van Dykes. Soon she gives the American an order for a painting, and he collects the sum of \$10,000, of which the go-between gets \$1,000 and the artists \$500. The last report I had from him was to the effect: "You ask about the nutty old lady? I am getting afraid she might rub some of the paint off that old master, and this would affect my artistic sensibilities."

This chap has got hold of all sorts of concessions. When I first knew him, by the way, he was a colonel in the Nicaraguan army. One of his most successful ventures was to start a watch club, in which you pay one dollar for initiation, and then run the chances of getting a watch. Well, the American showed a high municipal official in Buenos Aires that in a watch club there is a pretty big percentage for whoever is running it, with the result that 40,000 policemen and other government employees were ordered to become members.

### Didn't Look Like an Actor.

Lawrence Wheat (Larry for short), who has been more or less a Broadway star for several seasons, made his first big hit in the part of "Stub" Talmage in "The College Widow." Larry had not long been out of college when the Ade comedy was finishing its long run at the Garden theater. Two companies were to be placed on the road and Wheat, who had seen the play several times, felt that he was born to play the part of "Stub." Accordingly he waited upon Henry W. Savage, the producer.

Savage studied the applicant keenly.

"So you want to play the part of Stub?" said the colonel. "What makes you think you can play the part?"

"I'm just that sort of a type," said Wheat, swelling up his chest and trying to look real brave.

"Well," said the colonel, "we need an actor as well as a type for that part. Are you an actor?"

"I am," said Wheat.

"You don't look like an actor," said the colonel.

"I don't want to look like an actor," said Larry. "It's tough enough to have to be one."

That line got the job.

### Some Words You Don't Know.

What is the use of coining slang words to express your meaning in a more picturesque fashion than your neighbor when the dictionary is full of words just as queer and far more correct. Here are a few perfectly good words to be found in any complete dictionary of the English language. But don't you go to the dictionary for them—yet. See first if you can figure out their meaning. Then, when you have looked them up, spring them on the next fellow. He will either brand you as a highbrow or else admire you as the inventor of a new language, though you are neither. Here are the words:

Opusculum, tobaccoconing, noddie, node, futtock, gallimatias, fadle, duvet, dziggetall, dwale, periotic, predicant, younker, quintal, propense, quib, beckett, chauvinism, beluga, gar, hypostyle, aoudad, incoedite, inly, kelp, jorum, rundlet, ruperitine, caddis, fassle, calcar, flinder, hopple, horary, thorp, usitative, woof, corolith, gaum.

All of them in the dictionary. Almost none of them jawbreakers or overlong. What do any of them mean?

### American Women Supreme.

The Countess Szechenyi, nee Gladys Vanderbilt, praised the good taste of American women at a luncheon. She ended her praise with an epigram both striking and true. "The women of all nationalities," she said, "can make their own clothes, but only the American woman can make them so that nobody ever suspects it."

### English Getting Fond of Cheese.

Cheese is coming more and more in favor for lunches in England. In addition to the homemade product there were consumed last year imported cheese that cost \$34,746,000.

## BECKER'S TRIAL IS ON

### Policeman Is Denied Delay of Case by Justice Goff

Body of "Big Jack" Zelig Is Buried—Funeral Attended by Many Criminals—Much Trouble.

New York, Oct. 8.—A fight to delay the trial of Charles Becker, former lieutenant of police, who is charged with the murder of Herman Rosenthal, the gambler, was lost when John F. McIntyre, chief counsel for Becker, announced that the illness of his associate, John W. Hart, caused him to desire a continuance. Justice Goff promptly denied the motion.

The murder Saturday night of "Big Jack" Zelig is also said to have been a serious blow to the defense. Mr. McIntyre making public for the first time the fact that the notorious gangster had been under subpoena as a witness for Becker.

Besides Becker, six men of New York's underworld have been indicted for the crime, but Becker, as alleged instigator of the murder plot, will be tried first.

The two hundred and fifty talesmen from whom a jury will be chosen reported early at the criminal courts building.

The body of "Big Jack" Zelig was put to rest in Washington cemetery, Brooklyn, after scenes of turbulence in and around the house at 236 Broome street, where the funeral services over the body of the murdered gang leader were conducted by Rabbi Spiegel.

### STEEL POOLS ENDED 1904?

Testifies Official of Jones & Laughlin Co. in Government Quiz.

Pittsburg, Pa., Oct. 8.—That the steel pools were done away with in 1904, when Judge Gary, chairman of the board of directors of the United States Steel corporation, informed the companies in the pools that they were violating the Sherman anti-trust act and there were rumors shortly after the election of Colonel Roosevelt to the presidency that the United States government was going to investigate the United States Steel corporation, were the main points brought out in the testimony of Willis L. King, vice-president of the Jones & Laughlin Steel company, a large independent company, at the inquiry into the affairs of the United States Steel corporation being conducted by the United States government.

### KILLED IN POLITICAL ROW

Two Slain and Many Mortally Wounded in Cuban Fight.

Havana, Cuba, Oct. 8.—Two were killed and the chief of police and several others mortally wounded in a faction fight at Colon, in the province of Matanzas. The combatants used revolvers and machetes. The Conservatives declare that the fight was precipitated by the favoritism shown by the police to the Liberals. This is the sixth case of a fatal collision within a month.

### EX-SENATOR PEPPER DEAD

Noted Populist Leader Passes Away at Age of 81 Years.

Topeka, Kan., Oct. 8.—William A. Pepper, elected to the United States senate by the first Populist legislature of Kansas, died of apoplexy at Grenola, Kan., at the age of eighty-one years. He had suffered from shock following the amputation of a leg. Senator Pepper was elected to the senate in 1891 and served six years.

### Foreign Missioners Meet.

Portland, Me., Oct. 8.—The one hundred and third annual meeting of the American board of foreign missions began here. Officers of the organization will report the board free from debt for the fourth time in its history, despite the great outlay, the receipts being \$1,062,433 and expenditures \$1,062,064.

### He Cannot Forget.

A musician seated far out on a wind swept pier at Atlantic City, was telling stories about composers.

"Dr. Richard Strauss," he said, "visited America before he achieved world fame, and the sapient, cock-sure critics of New York were very hard on him. In fact, they were so hard on him that Dr. Strauss had not yet either forgotten or forgiven them. The wound is still raw. It still bleeds."

The musician regarding with an absent smile the slow, lazy graceful dives of a school of porpoises in the tumbling water, continued:

"I had the honor last year of attending one of Dr. Strauss' rehearsals in Munich. It was a new symphony, very beautiful, but very bizarre. In the middle of it the composer rapped his desk impatiently and called to the double bassoon:

"Why don't you play the F sharp that is marked?"

"The bassoon, a bullheaded sort of fellow, answered:

"Because it would sound wrong, that is why."

"Dr. Strauss gave a harsh laugh and shouted:

"Himmel! Are you a New York critic in disguise?" — Washington Star.

## BLAST HURTS U. S. TROOPS

## Fifteen Injured in Trolley Crash.

Pittsburg, Pa., Oct. 8.—Fifteen persons were injured in a rear-end collision of trolley cars at Braddock, a suburb. Several are expected to die.

## CONVICT HAS FERTILE BRAIN

Inventions of Real Worth the Work of Prisoner in Pennsylvania Penitentiary.

There was exhibited in the Eastern Penitentiary at Philadelphia a few days ago, six mechanical devices which one of the inmates of the institution has invented. The man, John Edwards, who is serving a long term for robbery, displayed so much ingenuity and skill in his work that the warden furnished him with money and gave him permission to spend his time in the perfection of his inventions.

One of the devices is a burglar alarm and doorbell. Another which the inventor calls an "internal combustion turbine," has aroused the curiosity of prominent mechanical engineers. It is operated by means of gravity and hydrostatic pressure. A "noiseless railroad crossing system" is another invention, the model of which he exhibited. He has applied for patents in Washington.

Edwards has invented an "ellipsograph," to be used by draftsmen and architects in drawing ellipses. He showed an improvement in padlocks, where the tensile strength of the lock is equal to the strength of six other ordinary locks. He has perfected an advertising device which consists of pieces of wood which can be applied to almost any use, and upon which pictures have been drawn. Among the uses to which the board boards can be put is in the construction of the backs of chairs.

## TOWERED OVER SHIP'S MASTS

Commanders of Vessels Supply New Information as to Height of Atlantic Waves.

It is very doubtful if the log of any naval vessel of the world contains records equal to those of the Roe. Lieut. Commander C. H. Woodward has stated that he never expected to bring his craft through the immense waves. The indicator on the bridge, which was at times the only part of the vessel out of water, showed that the little craft rolled 90 degrees, being at times clear over on her beam ends.

Just at the time when the commanders of the little squadron estimated that the gale was at its height and blowing practically 90 miles an hour the Roe's steering gear gave way and she dropped into the trough of the sea. This little vessel's masts are 52 feet high from the water line, says the Christian Herald, and although it has been stated that the highest wave yet recorded upon the Atlantic ocean was not more than 30 feet in height, Commander Woodward's estimate that the waves of the recent storm overtopped his masts by several feet has been borne out by the officers not only of the smaller ships but even of the battleship Delaware.

## Sacredness of the Cow in India.

The killing of animals is abhorrent to the Hindoo. You may see the pious Jain, who carries the doctrine of the preservation of life to an absurd extreme, moving about on the Esplanade or near trees and fields with a packet of flour and sugar, in search of ants and other insects, that he may feed them from his store. In towns and villages you will occasionally come across the sacred bull, who roams about at will, and helps himself to grain and other foodstuff placed in shops as he pleases. Life is a symbol of divinity. None will molest him; everybody will hold him in reverence. But in the case of the bull the reverence is limited to the one who, so to speak, is born in purple.

As for the cow, the entire species is sacred, and to kill it is a cardinal sin. Whenever the pious Hindoo passes by a cow, he touches it with his hand and salutes it.

## CLAIM BOMB PLOT IN PANAMA CANAL

Federal Attorney Says Accused Dynamiters Planned to Destroy Locks.

## UNION LEAD R ADMITS GUILT

Edward Clark Taken to Jail After His Admission on Fifty-five Counts Charging Conspiracy and Shipping of Explosives.

Indianapolis, Ind., Oct. 8.--Pages from the careers of the McNamaras and Orrie E. McManigal, as leaders of "the firing squad of dynamiters," with conversations in which they were said to have plotted to blow up the locks of the Panama canal, were read by District Attorney Charles W. Miller before the jury at the trial of the accused "dynamite conspirators" here. The incident, in reference to Panama, Mr. Miller said, occurred just before the arrest of the Los Angeles dynamiters when they were becoming desperate in their efforts to secure explosives without betraying their identities.

Dynamite Was Hard to Get.  
"John J. called James B. McNamara, his brother, and McManigal to the headquarters of the International Association of Bridge and Structural Iron Workers," said Mr. Miller. "John J. said to McManigal, 'We can't get any more dynamite around here without stealing it. Now, you go to Panama and see what you can do down there. The McClintic-Marshall Construction company has a lot of dynamite stored down there. You could easily get hold of it and blow up the locks. That would make 'em sit up and take notice and take their minds off the Los Angeles affair.' McManigal refused to go at that time. Soon after they all were arrested."

Iron Worker Pleads Guilty.  
Edward Clark of Cincinnati pleaded guilty to the government's charges in the dynamite conspiracy. Clark was business agent and president of the Cincinnati local of the Structural Iron Workers' union from 1908 to 1911.

As soon as court opened District Attorney Charles W. Miller addressed Federal Judge A. B. Anderson:  
"If it please the court, the defendant Clark of Cincinnati wishes to change his plea from 'not guilty' to 'guilty.'"

Judge Questions the Prisoner.  
"Do you plead guilty?" asked Judge Anderson.

"I plead guilty," said Clark.  
The prisoner was then separated from the other forty-five defendants and taken to jail, to await the imposing of his sentence. Clark pleaded guilty to all the charges--five counts of conspiracy and fifty counts of being a principal to the actual illegal interstate shipment of dynamite and nitroglycerin.

Clark's activities in promoting explosions, Mr. Miller asserted, were carried on through letters written by Frank M. Ryan, president of the union, and the McNamaras.

Umbrella Gives the Clue.  
An ivory-handled umbrella bearing the initials "E. C." found in the wreckage of a dynamited bridge at Dayton, O., Mr. Miller said, led to the disclosure that Clark actually had caused the explosion, having used the umbrella to protect the dynamite from the rain and then leaving it behind.

## CANADIAN HORSE WINS

Sotemia Lands \$15,000 4-Mile Kentucky Turf Classic.

Over 25,000 People Witnessed Great Event at Louisville--Jockey Loftus Cheered by Crowd.

Louisville, Ky., Oct. 8.--Sotemia, owned and carrying the colors of Mrs. L. A. Livingstone of Woodstock, Canada, won the great \$15,000 four-mile classic of the Kentucky turf at Churchill Downs. In doing so, she shattered the world's record as well as the track record for the distance, her time being 7:10 4/5.

Mrs. Livingstone was not present to see Sotemia's remarkable performance, being represented by Trainer Peakes, who carried back the gold cup and \$8,570 in cash as Sotemia's portion of the purse.

A crowd conservatively estimated at about 25,000, witnessed the running of the classic and cheered Sotemia and her midjet rider, Jockey Loftus, on their return to the judge's stand.

## Big Storm on Virginia Coast.

Norfolk, Va., Oct. 8.--The storm predicted by the weather bureau struck the Virginia-Carolina coast and is kicking up the highest seas seen at Norfolk in many years. The storm is coming from the northeast and the velocity of the wind is 55 miles an hour.

## Lester Defeats Jack Howard.

Sydney, Australia, Oct. 8.--Jack Lester defeated Jack Howard, a middle weight boxer of New South Wales, in thirteen rounds. The police had to stop the fight to save the Australian from serious injury. A big crowd attended the mill.

## TURKEY DEMANDS ARMIES DISBAND

Troops in Balkans Must Demobilize in 24 Hours or Be Attacked.

## POWERS TO INSIST ON PEACE

Unite in Decision to Demand That Provinces Be Better Ruled--Bulgarians Are Attacked by Ottoman Soldiers--Fight Raging.

Berlin, Oct. 8.--On information received from its correspondent at Constantinople, the Taegliche publishes a report that Turkey will send an ultimatum demanding the demobilization of the armies of the Balkan states within twenty-four hours. Otherwise Turkey will attack within a day.

## Bulgaria Clamors for War.

Budapest, Oct. 8.--So intense is popular feeling at Sofia, according to dispatches received here, that King Ferdinand may be forced to order the invasion of Turkey by the Bulgarian army to protect his throne. The population of Sofia demands instant action against the Turks, threatening to turn against the throne if action is not taken.

## Powers to Demand Peace.

London, Oct. 8.--With practically every great power in Europe united in the determination to prevent the threatened war in the Balkans, hope of peace loomed up brighter than at any time since the announced coalition of the Balkan states against Turkey.

Sir Edward Gray, foreign secretary, stated before the house of commons in London that England had joined with the nations of continental Europe in their efforts to prevent war and notified the French government that the latter's proposals of intervention at the capitals of the countries concerned had been accepted by Great Britain.

## Diplomatic Note to Turkey.

The powers will at once send a diplomatic note to Turkey expressing the necessity of a correction of the latter's mode of government of the sultan's European provinces and at the same time present at the courts of the Balkan states notes conveying their disapproval of the latter's warlike attitude.

Austria and Russia have been selected to act at the courts of the Balkan states for the powers, while the ambassadors of each government will act in unison at the sultan's court.

## Bulgarians Are Attacked.

Salonica, European Turkey, Oct. 8.--A sharp battle was fought between Bulgarian troops who crossed the frontier into the Vally Rey district and Turkish soldiers.

The Bulgarians seized several unoccupied Turkish block houses and began putting them into shape to withstand a siege when the Turkish troops came up.

When the strength of the Bulgarians was seen additional Turkish soldiers were sent to the scene and they opened fire upon the block houses. The Bulgarians answered the fire and the conflict is still raging.

## Five Turkish Soldiers Killed.

Belgrade, Serbia, Oct. 8.--Five Turkish soldiers were killed and an officer captured in a fight with Serbian gendarmes at Obitchoff, on the frontier.

## MONEY NEVER LEFT HAVANA

Part of Lost \$200,000 Discovered in Cuban Capital.

Havana, Cuba, Oct. 8.--Officials of the National Bank of Cuba announced that evidence uncovered in investigating the disappearance of \$200,000 supposed to have been sent by registered mail from the Cuban institution to the National Park Bank of New York, tends to show that the money never left Havana and was probably stolen from the bank itself. The officials base their new belief on the fact that one of the lost \$10,000 bills was discovered by the Havana branch of the Royal Bank of Canada here.

## REPORTS A REBEL DEFEAT

General Blanquet Announces Victory Over Band of 300.

Monterey, Mexico, Oct. 8.--Three hundred rebels commanded by Marcelo Caraveo were completely defeated by the federals under Gen. Aurelio Blanquet at Alto de Las Esperanzas, to the west of Muzquiz, according to the official report. General Blanquet declares that his troops killed forty rebels and captured eight men and seventy horses. Only three federals were killed, though many were wounded.

## Aged Man Seriously Hurt.

Newark, O., Oct. 8.--Jerry Hanks, an aged man, was murderously assaulted here by an unknown man, who struck him across the base of the skull with some instrument, in front of the tabernacle where Rev. Lyon of Chicago is holding revival meetings. Mr. Hanks is in a serious condition.

Los Angeles, Cal., Oct. 8.--A building at 2710 Pomeroy street, in an isolated Italian quarter of the city, was wrecked by an explosion here.

## NEWS OF ILLINOIS

A Telegraphic Chronicle of State Happenings.

## MAN IS SERIOUSLY WOUNDED

Alfred Davis Is Shot From Ambush on Farm of Mrs. E. C. Voorhees at Alton--Dog's Barking Attracts Rescuers.

Alton, Oct. 8.--Alfred Davis, twenty-eight years old, of Alton, was shot by an unidentified person while he was gathering walnuts on Sunny Side farm, belonging to Mrs. Culver Voorhees, former wife of a Chicago public school principal. Davis was discovered four hours after his right side had been riddled with two loads of shot. Three boys telephoned for a physician, who says, owing to his long exposure following the shooting and the character of his wounds, Davis can hardly survive.

Davis said he had no idea who shot him nor why. He said he was carrying a sack of nuts on his back, near a grove, when some one shot him twice, both loads taking effect at close range. When he looked around he could see no one. To the barking of his dog is due Davis' rescue from death. The dog, fearing further hurt to his friend, had to be beaten into insensibility before he would let the rescuers touch his unconscious master.

## Meeting Held in Chicago.

Chicago, Oct. 8.--The Illinois Fish Conservation society, a recently organized body of anglers and commercial fishermen, held a general meeting today in the Hotel Sherman, to which every one interested in fish and fishing in the state was invited. The officers of the society are: President, J. H. Ray of Wilmington, president of the Wilmington Fish and Game Protective association; vice-president for northern Illinois, H. Wheeler Perce of Chicago, vice-president of the American Fisheries society; vice-president for central Illinois, State Attorney Robert Scholes of Peoria; vice-president for southern Illinois, L. C. Helm of Marine, editor of the Illinois Fisherman; treasurer, S. B. Cramer of the Hinsdale bank, Hinsdale; secretary, E. P. Sperry of Oak Park, and assistant secretary, B. G. Merrill of Hinsdale, editor of the Illinois Fish Conservation News-Letter.

## College Gets Loan Fund.

Champaign, Oct. 8.--Because University of Illinois students have demonstrated their honesty, Representative William B. McKinley has presented \$13,000 to the trustees as the nucleus of a loan fund for needy students. For fifteen years the congressman has loaned money with no security except the reputation of the student for honesty as vouched for by the dean. In all that time he has not lost a cent of principal or interest. No security will be required for the new loans other than reputation for probity.

## Peoria Explosion Burns One.

Peoria, Oct. 8.--The Corning mill and press of the Western Powder company's plant at Edwards station, 13 miles west of here, blew up. Ernest Hedwig, a workman, had just left the building, but was badly burned and shocked. The explosion caused residents here to think an earthquake had shaken the city. The Corning mill and press occupied one building, a rough frame structure. The building was demolished and the machinery practically ruined.

## Diphtheria Closes Schools.

Duquoin, Oct. 8.--Following the outbreak of several cases of diphtheria here, the city and township boards of education and the city board of health, have ordered the Township High school, city and parochial schools to close for a week. No deaths have resulted and the local physicians think a suspension of school will materially aid in controlling the situation. No Sunday school was held at any of the churches here.

## Dies Just Before 100th Birthday.

Louisville, Oct. 8.--Just ten days before he would have celebrated his one hundredth birthday anniversary, Dr. F. R. Pitner, the oldest resident of Clay county and the oldest physician in Illinois, died at the home of his son, Charles M. Pitner, at Clay City, ten miles southeast of Louisville.

## Charged With Slaying Sister.

Quincy, Oct. 8.--Ray Pfanschmidt was arrested for murder in connection with the Pfanschmidt quadruple murder case. The formal charge is that of the murder of Blanche Pfanschmidt, sister of the accused young man. Young Pfanschmidt is twenty-three years old.

## TO AILING WOMEN

A LITTLE SOUND ADVICE WILL HELP MANY A SUFFERER IN DIXON

No woman should consider herself healthy and well if the kidneys are weak. Poisons that pass off in the secretions when the kidneys are well, are retained in the body when the kidneys are disordered. If the kidneys and bladder become inflamed and swollen worse troubles may quickly follow. This is often the cause of bearing-down pains, lameness, backache, etc. Uric poisoning is also frequent cause of headaches, dizzy spells, languor, nervousness, and rheumatic pains.

When suffering so, try Doan's Kidney Pills, remedy that has proven effective in thousands of such cases. Let a Dixon woman tell of her experience.

Mrs. F. E. Self, 1009 Highland Ave., Dixon, Ill., says: "The use of Doan's Kidney Pills has been very beneficial to me. I am glad to recommend this remedy for kidney trouble and backache."

The above statement must carry conviction to the mind of every reader. Don't simply ask for a kidney remedy—ask DISTINCTLY for DOAN'S KIDNEY PILLS, the same backed by home testimony. 50c, all stores. Foster-Milburn Co., Props., Buffalo, N. Y.

REVOLT IS NEAR END  
Believed That Trouble in Nicaragua Is All Over.

Slaying of Three Women by General Zeledon in Flight Is Revealed in a Dispatch.

Washington, Oct. 8.—Evacuation of Nicaragua by all American troops within 30 days was the private prediction of prominent naval officials. They consider the revolt ended, but were anxiously awaiting confirmation by Admiral Southernland that General frias and the remaining band of rebels had surrendered at Leon.

The bodies of the four Americans killed in the battle of Barranca will be returned to this country on one of the battleships stationed there. In a statement issued by the state department is a dispatch from American Minister Weitzel, stationed at Managua, in which this occurs: "One of the Nicaraguan rebels who was taken prisoner when Zeledon was captured has informed the government of Nicaragua that Zeledon and his 25 partisans, while fleeing toward the Costa Rican boundary, met three women, who Zeledon murdered in cold blood in order to prevent their bringing news of his movements to the pursuing forces. Zeledon and his men took shelter in a church in Managua and hoisted a white flag. Col. Alberto Chamorro, a cousin of Gen. Emiliano Chamorro, and two other government officers approached to complete the surrender. The rebels in the church met them by a withering fire and all three were severely, if not mortally, wounded. The government forces planted a field piece in front of the church and battered down the door. Later a company of marines, under Captain Green, took charge of the situation."

AVIATOR BADLY INJURED  
Leaps From Biplane When Machine Becomes Unmanageable.

Birmingham, Ala., Oct. 8.—Joseph Stevenson, aviator, leaped from his biplane, which had become unmanageable at an elevation of fifty feet, and falling, suffered injuries which physicians say will prove fatal. He had been aloft for only about two minutes and was seen to turn with apparent intention of landing. Then he jumped. Stevenson's skull was fractured and a rib several of which were broken, punctured his lungs. Among the witnesses were Mrs. Stevenson and several thousand school children.

## JUDGE DENIES DELAY

C. BECKER, FORMER GOTHAM POLICE OFFICIAL, LOSES POINT.

Formal Hearing of Ex-Lieutenant, Accused of Gambler's Death, Begins in New York.

New York, Oct. 8.—A fight to delay the trial of Charles Becker, former lieutenant of police who is charged with the murder of Herman Rosenthal, the gambler, was lost when John F. McIntyre, chief counsel for Becker, announced that the illness of his associate, John W. Hart, caused him to desire a continuance. Justice Goff promptly denied the motion.

The murder Saturday night of "Big Jack" Zeig is also said to have been a serious blow to the defense. Mr. McIntyre making public for the first time today the fact that the notorious gangster had been under subpoena as a witness for Becker.

Besides Becker, six men of New York's underworld have been indicted for the crime, but Becker, as alleged instigator of the murder plot, will be tried first.

The two hundred and fifty tlesmen from whom a jury will be chosen reported early at the criminal courts building and curious crowds swarmed through the corridors, waiting to see Becker brought across the bridge of sighs from the Tombs for his arraignment.

The prosecution will attempt to show that Becker actually ordered that Rosenthal be murdered, that Becker knew the time fixed for execution of the crime, and that he afterward used his official position to shield the four men accused of firing the shots—"Gyp the Blood," "Duffy Lewis," "Whitney" Lewis and "Dago" Frank.

Those men will be tried later with Jack Sullivan, who rode uptown with Becker in an automobile the night of the murder, and William Shadro, chauffeur and part owner of the car used in killing Rosenthal. It is expected that more than 50 witnesses will be called.

## HONOR RILEY'S BIRTHDAY

Pupils of Schools All Over Indiana Join Elders in Tribute to the "Hoosier Poet."

Indianapolis, Ind., Oct. 8.—From the small rural school to high schools in the cities of Indiana all celebrated the birthday of James Whitcomb Riley, the "Hoosier poet."

While Mr. Riley always has refused to tell his age, it is generally believed that this is his fifty-ninth anniversary. He spent the day quietly at home. "Riley week" will be observed in many schools with daily readings and recitations from the poet's works.
